Dear Mr. Secretary General,

I am honoured to announce and confirm ABC Group Inc.'s ("ABC") support of the ten principles of the UN Global Compact with respect to human rights, labour, environment and anti-corruption.

With this letter on behalf of the company, I express ABC's intent to advance these ten principles within the company's sphere of influence. We at ABC are committed to making the UN Global Compact and its principles part of our business strategy, our corporate culture and integrate the principles into the daily operations. We are open to engaging in collaborative projects and partnerships to advance the development goals identified by the United Nations, including support for the 17 Sustainable Development Goals. ABC will ensure its commitments to the UN Global Compact are clearly communicated to stakeholders and employees, and to the public through the company's website, which will include ABC's pledge of support to these principles.

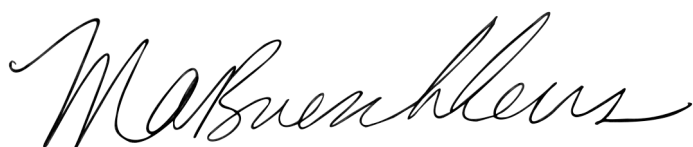

As part of ABC's commitment to the UN Global Compact, we recognize the requirement to submit a Communication on Progress (COP) outlining the company's efforts to implement the ten principles. ABC strives to be as transparent and accountable as possible, and therefore, we commit on its behalf to report on its progress within one year of joining the UN Global Compact, and annually thereafter according to the Global Compact COP policy.

Additionally, ABC will commit to the other requirements within the Global Compact COP policy, including by providing:

- (1) A statement signed by me as the Chief Executive Officer of ABC expressing continued support for the UN Global Compact and an ongoing commitment to the initiative and its principles. This will be separate from this initial letter of commitment;

- (2) A description of actions that the company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four specific areas (human rights, labour, environment, anti-corruption); and
- (3) Progress reports on ABC's support for the UN Global Compact's principles.

Sincerely,
